

# 5 BENEFITS

## MANAGE SOFTWARE LICENSES WITH VIZOR

### QUESTIONS

What are you looking for in a Software & License Manager?

What are the implications of not having a solution in place?

What is the cost of a solution? Is it possible to get a return within 18 months?

### 1. CENTRALIZE PURCHASING

Eliminate departmental silos by centralizing software purchases with a request portal. This removes duplicate licenses and creates opportunities for quantity discounts.

### 2. PROTECT INFORMATION

90% of former employees can access a company account after they leave the firm(1) VIZOR removes access to accounts and documents as soon as an employee leaves

### 3. REMINDERS

VIZOR is a proactive solution, sending IT departments notices when their software is over or under compliant, and reminder emails for updates and renewals

### 4. SOFTWARE RECYCLING

18% average turnover rate can lead to thousands of forgotten licenses that could have been recycled if they were properly managed (2) VIZOR is a central repository that stores and redistributes licenses when needed.

### 5. QUICKER ROI

VIZOR's features have been compared to high-quality tools like BMC Remedy and HP. However, customers choose VIZOR considering our affordable pricing. **Our solution is up to 40% less than competitors, allowing our customers to reach their return on investments much faster.** Our customers have reached up to a 57% ROI after one year of implementation!
